

CSCE-637 Complexity Theory

Fall 2020

Instructor: Dr. Jianer Chen

Office: HRBB 338C

Phone: 845-4259

Office Hours: TR 1:30 pm–3:00 pm

Instruction for Project Submission

The project submission should include

- A README file that consists of
 - (1) a paragraph that outlines the project proposal you submitted in November,
 - (2) a paragraph that is an overview of your research,
 - (3) detailed references to the papers you read for the project, and
 - (4) a paragraph that summarizes the results of your research;
- Copies of the paper(s) you read (in pdf);
- A copy of your research report (in pdf);
- Anything else you feel needed.

Please submit unzipped files, so that I can comment directly on your submission.

Submit your project in Canvas **no later than December 1 at 11:59 pm.**

The project report should be printed single-spaced, and include the following components:

A. Report on paper reading:

- (1) what is the paper about,
- (2) why the paper is important and interesting,
- (3) previous related research,
- (4) main and new techniques used in the paper,
- (5) new results presented in the paper, and
- (6) future work and research directions.

B. Report on course research:

- (1) an abstract of the research,
- (2) a statement of the research problem(s), and the objective of the research,
- (3) research background and related work,
- (4) detailed descriptions of your approaches to the proposed problems,
- (5) difficulties encountered in the research and your tried approaches,
- (6) summary of your results, and
- (7) future work.
